## Corfu Barstool

From world-renowned seating designer Jorge Pensi comes Corfu - a groundbreaking fusion of curvaceous forms that will elevate the appeal of any space! Whether the venue is for work or play, healing or learning, eating or drinking - Corfu is stackable, durable, and eminently lovable.

## Corfu Environmental

The use of recycled and recyclable materials, combined with environmentally-friendly production processes and packaging, have made Corfu a level™-certified product, and a contributor to LEED™-driven specifications. Corfu is certified by the Greenguard™ standard for indoor air emissions, and it's unique capability for extending product life makes it a responsible environmental choice - and one that will provide exceptional return on investment over time.

**SUSTAINABLE DESIGN**  
Corfu is made with recycled materials, with an overall recycled content of 40%. Many of these same materials are also recyclable.

**STEEL FRAME**  
Corfu seating is built with high strength steel castings and extrusions. Finish options are Silver Metallic and Polished Chrome.

**BEECH PLYWOOD**  
Wood seats and backs are made with European Beech hardwood veneers, featuring nine (9) plies of cross grain for added strength and durability.

**PLASTIC COMPONENTS**  
Polypropylene seats, backs and other components are injection molded, with pigment diffused throughout, available in six different colors. Color Selection: White, Black, Grey, Red, Blue, Sand

**UNDER SEAT COVER**  
Each Corfu includes an underseat system for stacking: a grey polypropylene seat pan that nests into the seat below and protects it from the frame above. It also provides for easy cleaning and maintenance by covering the underside of the chair.

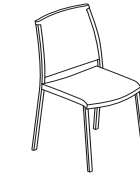

**STACKING**  
Chairs are stackable, to a maximum of 13 chairs for the wood or plastic, and 10 chairs for the upholstered version, when stacked on the caddie. Corfu chairs are stackable to a maximum of 9 chairs for the wood or plastic and 6 chairs for the upholstered version when stacked on the floor.

**CADDIE**  
The Corfu caddie provides enhanced stackability, along with the ease of movement and storage. Its design allows for the stacking and storage of all Krug stackable chairs. It has a durable tubular construction and 4 soft-wheel swivel, locking casters.

**COMBINATION UPHOLSTERY**  
Combination upholstery option includes more than one upholstery cover within the same unit. Back & Seat can be specified in a different fabric selection.
