# Faeron Behavioral Health Guest & Patient

An award-winning collection of seating, Faeron enhances beautiful spaces with its sophisticated presence. With an impressive range of models and configurations, sizes and finishes, materials, options and ability to customize, Faeron can be specified to perfectly suit a multitude of applications within the same facility - providing an attractive and functional cohesiveness to places where people gather.

## Faeron Behavioral Health Multiple Seating

Faeron chairs can be ganged using a ganging bracket. The powder-coated metal plate is fastened to the underside of the steel side rails using the pre-existing holes in the frame.

Above all else, the provision of exceptional comfort (including for periods of extended sitting) has been paramount in Faeron's lengthy development process. With detailed research and painstaking engineering, Faeron's seats and backs have been precision-contoured and shaped with multi-density foam to support the user - and markedly reduce fatigue. Our proprietary spring-seat construction greatly enhances comfort and reduces user fatigue - while also extending the life of the product - in comparison to conventional seating.

### Behavioral Health

## Faeron Behavioral Health Lounge

Faeron Lounge is available with stylish and durable metal legs, in two finishes- powder coated silver metallic (standard) or brushed nickel. The product has a lifetime warranty, made possible by the use of the most durable and proven materials and finishes available. Our renowned system for replaceability of components and upholstery covers enables product life to be substantially extended, allowing furniture to continue looking as new even with years of use. If components become damaged or degraded, they can be replaced, and optional removable upholstery covers allow replacement of worn textiles. This system is also designed to facilitate infection control and cleaning, by providing the ability to dis-assemble the product or remove upholstery covers for cleaning.

## Faeron Environmental

The use of recycled and recyclable materials, combined with environmentally-friendly production processes and packaging, have made Faeron a level™-certified product, and a contributor to LEED™-driven specifications. Faeron is certified by the Greenguard™ standard for indoor air emissions, and it's unique capability for extending product life makes it a responsible environmental choice - and one that will provide exceptional return on investment over time.

**Faeron Multiple Seating** (also available in Patient back)

**Zola Behavioral Health Tables** | Perfect solution to accompany Faeron Behavioral Health Seating

**WALL SAVER**

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility.

**FLEX BACK**

The ergonomically-designed back has a slight flexing action, which significantly enhances comfort.

**SLED BASE**

The Faeron side frames legs have the option to be tied front to back with a steel rail, this will strengthen the frames and eliminate the option of having legs.

**TAMPER RESISTANT HARDWARE**

All screws used on the Faeron Behavioral Health units have been replaced with tamper resistant security screws.

**CLEAN OUT**

A clean-out space between the seat and back makes for easier cleaning and maintenance.

**SECURED GLIDES**

Faeron Behavioral Health chairs have their glides secured in place to prevent their removal and damage.

**BOTTOM STAPLE COVER/SHIELD**

This cover is designed to prevent access to the upholstery staples of the seat and to prevent the hiding of objects underneath the seat. The cover is also designed to allow for regular ganging hardware and proper seat ventilation.

**BACK STAPLE COVER STRIP**

Faeron Behavioral Health back upholstery has been altered to allow a staple cover strip to be attached; this will prevent access to the upholstery staples. The cover strip is nylon coated galvanized steel with vinyl coated ends to prevent any sharp edges.

**TAMPER-RESISTANT SPLASHGUARD**

All Faeron seating models are available with a coated steel moisture barrier that covers and enclosed the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion).

**SOLID SURFACE ARM**

Optional Solid Surface Arms provide a fully seamless, durable, easy to clean armrest. Available in 8 standard Corian colors and replaceable as a full side frame.

**SECURED WOODEN ARM**

Faeron Wood Arm caps are fastened to the side frames with tamper resistant security screws. Wood arms are available in solid beech hardwood and in 22 Krug standard finishes.

**NO SPRING SEATS**

With this option the springs in the seat are removed and replaced with a solid plywood seat pan, additional foam has also been added in place of the springs for comfort.

**WEIGHTED SHIELD**

This steel shield option is designed to add enough weight for the product to be a minimum of 80 lbs.

**FLOOR ANCHOR BRACKETS**

Floor mounting brackets are supplied to be secured to the bottom of the Faeron sleigh base with tamper resistant security screws. (The hardware to attach the brackets to the floor is not provided by Krug.)

**KINETIC BACK**

This optional feature provides the chair back with a very pleasant and comfortable rocking motion, which can significantly enhance long-term sitting for patients and guests. The durable spring-loaded mechanism provides a range of motion of 20 degrees, and can be field-installed or replaced

**COMBINATION UPHOLSTERY**

Combination upholstery option includes more than one upholstery cover within the same unit. Back, Seat, Closed or Semi-closed arm can be specified in a different fabric selection.
