

Ascend Recliners

krug HEALTHCARE 

Ascend

3 Position Recliner

The 3 Position Recliner is our most popular model -back and footrest are adjusted with body weight of the patient, or by the caregiver. And its a workhorse with a superb mechanism and an incredible track record of continuous, problem-free use. Shown with Central Caster Locking option.

Ascend Recliner Plus

Spacious and comfortable, the Ascend Recliner Plus features an interior seat/back width of 28.75", and a dynamic weight rating of 750 lbs. Back recline and footrest are adjusted with a side-mounted lever that can be operated by the patient or caregiver. Shown with optional Polymer Profile arms.

Ascend Sleep Recliner

The Sleep Recliner features the same infinite back positioning allowing the patient to recline from sitting to a full sleep position. Back and footrest are adjusted with a side-mounted lever that can be operated by the patient or caregiver.

UPHOLSTERED ARM

All Recliners feature fully upholstered arms, available with the option of being trimmed with polymer arm caps, urethane arm caps or solid surface arm caps.

SPRING SEAT CONSTRUCTION

The structural seat frame is made from welded steel with a powder-coated finish that allows Solis to well exceed ANSI/BIFMA standards. Rounded arms provide support for safe and easy ingress and egress.

HIGH DURABILITY MECHANISM

Ascend mechanisms are designed for high-traffic, intensive use in care-giving environments. They are built with high-strength steel, and include Delrin™ wear pads between moving components for added smoothness and longevity.

PUSH BAR

Ergonomically designed to assist care-giving staff in the movement and operation of the recliner, as well as promote reduced back strain on the care-giver.

CONTINUOUS FOOTREST COVER

The fixed continuous footrest cover provides an easily cleanable surface. It also provides additional safety when in the upright position. Seat and cover can be replaced if worn or degraded.

CASTERS

4" twin wheel locking swivel casters provide quiet and smooth motion when moving Ascend Recliner Plus. The lock feature locks both the wheel and swivel.

CLEANING & INFECTION CONTROL

Specifically designed to ease the cleaning and disinfection of the recliner and the floor underneath. Upholstery covers can be made removable, and individual components are automatically removable, to enable thorough cleaning and disinfection.

REPLACEABLE COMPONENTS

Ascend recliners are designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs, arms, frames and casters are field replaceable.

ARM CAPS

Optional arm caps provide enhanced durability and protection and are field replaceable if damaged or degraded. Polymer & urethane arm caps are Grey. Solid Surface is available in 8 finishes.

PROFILE ARM

Profile Arm features a recess under the armrest and inset profile to aid in ingress/egress and serve as a grab rail to assist the patient during transfer. The Profile Arm provides enhanced durability and protection and is field replaceable.

POWER CONTROL

Motorized recline is available on all Ascend Recliners. This features independent back/ottoman control. Power can also be specified with a lithium battery pack able to run 200 cycles on a full charge.

PATIENT TRANSFER ARM

Patient Transfer Arms are designed to fold down where the arm is level with the chair seat. This design allows the care-giver to move the patient from the recliner to a bed, or other transport.

TRENDELENBURG MECHANISM

This mechanism provides the added position: full recline with footrest fully extended, seat-back angle at 125 degrees, back 65 degrees from vertical - resulting in the feet being above the head. It is activated by a foot-release lever that is accessible from either side of the recliner.

THERMAL COMFORT

Providing warmth to patients undergoing chemotherapy and other treatments can be vitally important. This option features a hand-held controller located on the inside arm of the recliner and provides two independently controlled heat zones: one in the seat and one in the back.

CENTRAL CASTER LOCKING SYSTEM

Allows for single action locking of all four casters at one time. Casters are locked both directionally and rotationally, keeping the recliner in place when locked. Central locking casters are 4" diameter with soft wheel treads.

COMBINATION UPHOLSTERY

Combination upholstery option includes more than one upholstery cover within the same unit. Back, Seat, and arm can be specified in a different fabric selection.

**SWING AWAY TABLET**

The tablet has the ability to slide up and fold over and rotate 180°. The break-away design allows for the tablet to be pushed away from the patient quickly in case of an emergency. Tablets cannot mount to Patient Transfer Arms.

**FLIP UP TABLET**

The tablet is 18" x 14" x 3/4", and it can be located on either side of the recliner. Please clearly specify whether a right-handed or left-handed position (facing) is needed when ordering. It is available Laminate with a Polymer edge. It folds flat (protruding 3" from the side of the recliner when flat). Tablets cannot mount to Patient Transfer Arms.

**FOLEY HOOK**

This recessed, retractable hook system provides a mounting system for catheter bags. It is spring-loaded to automatically retract when not in use, to eliminate any hazard. It can be located on either the left or right side (facing) at the front of the recliner. Opposite to Flip up Tablet or Patient Transfer Arm.

**FOOT TRAY**

This option provides a concealed, pull-out tray to assist patients with ingress and egress. It features a non-slip tread and dedicated casters that prevent tipping when standing on the tray.

**IV POLE & HOLDER**

The Ascend Recliner IV pole is height adjustable and can be added in the field. It can be located on either the left or right side (facing) at the back of the recliner. The location must be specified at time of order.

**POWERDOC**

The pop-up PowerDoc offers convenient power and USB charging access on demand. Flush with the arm when closed and pops open with a simple touch to the cover. Located at the rear of the arm, opposite side of recliner controls. Includes a Hospital grade electrical outlet rated 15A/125VAC and a dual USB charger for USB powered devices.
