Jordan Side-Opening Sleeper

The Jordan Side-Opening Sleeper is an exceptional solution for compact spaces. This sleeper can be used as a lounge chair during the day and sleeper for resting. It extends to 86" and includes optional storage integrated into the deck. The side opening is easily released with the activator on the outside of the arm panel. The back cushion unfolds and converts into the sleep surface keeping all components within the unit. This sleeper has a depth of 31.5" .

Extended Sleep Surface

Standard features include dual density foam cushions with a medical grade bleach cleanable vinyl cover with moisture barrier on the sleep surface, fully upholstered arms and powder coated metal legs. Available options include heavy duty casters, integrated storage in the deck and solid surface or urethane arm caps in a variety of finishes.

Jordan Side-Opening Sleeper

TETHERED STRAP

The tethered strap feature is designed to keep the seat cushion securely in place, ensuring a tidy and comfortable seating experience. This durable strap is seamlessly integrated into the cushion design, allowing for effortless attachment to the lounge frame.

LEGS

The standard base is a 3" tall round steel leg with nylon glides. Legs under the stationary arm have adjustable glides.

STEEL CONSTRUCTION

Welded steel interior framework provides exceptional strength and the durability for extended product life.

COMBINATION UPHOLSTERY

Combination upholstery option includes more than one upholstery cover within the same unit. Back, seat, and arm can be specified in a different fabric selection.

Upholstered Front with Legs

Upholstered Front with Casters

CASTERS

3 inch dual-wheel locking casters are optional. The low profile soft wheels offer quiet and smooth performance.

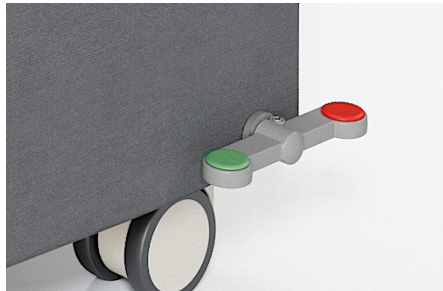

STORAGE COMPARTMENT

Optional storage compartment features a cleanable interior surface with a vented bottom and clean-out for debris and fluids. The spring assisted hinges hold the storage lid in the upright position to provide safe access.

LAMINATE FRONT PANEL

High pressure laminate can be specified for the front panel in Krug's in-stock laminates with matching 3mm edging.

CENTRAL CASTER LOCKING SYSTEM

Allows for single action locking of all four casters at one time. Casters are locked both directionally and rotationally, keeping the recliner in place when locked. Central locking casters are 4" diameter with soft wheel treads.
