Nuvo

An innovative concept that pairs sleek design with state-of-the-art technology, Nuvo is a leading conferencing solution. With Nuvo, it's a snap to assemble tables quickly and easily and to update and reconfigure technology and cabling. Nuvo's vast range of material choices including gloss aluminum, the highest-grade sustainable veneers, as well as laminate, solid surface and back-painted glass means the product can be specified to suit a variety of different environments from casual gathering, to formal meeting and video conferencing spaces.

Nuvo Media

Video conferencing is integrated into the meeting room with Nuvo's Visio table, which provides clear sight lines to the video conferencing camera and monitor mounted on the Nuvo Media Wall. The Media Wall is available in a wide range of standard and custom sizes and options.

Nuvo Back-Painted Glass

Nuvo Thoughtfully Designed

Meeting rooms can be high traffic areas, with lots of different users every day. Many Nuvo components feature rounded corners, so accidental contact with tops and bases isn't painful or damaging, and so an additional user can more easily be added around a fully occupied table. Whether it's one table or one hundred, we make each table to your exact specifications, with state-of-the-art Technology and artisanal pride- these are the high standards forged from over **140** years of craftsmanship.
