V2 Modular Conference

V2 Modular allows you to optimize the usage of meeting room spaces. The optional ganging module allows V2 tables to be hard-connected, and it is self-storing - neatly fastening underneath the table when not in use.

A wide-angle photograph of a modern conference room. A large, U-shaped wooden conference table with a light wood grain and white metal legs is the central focus. Several grey ergonomic office chairs are arranged around the table. Two laptops are open on the table. The room has a large window on the left side, offering a view of a city skyline. The floor is covered with a dark grey carpet. The wall is a neutral, light beige color. The text "V2 Conference" and "Designed to Perform" is overlaid on the wall in a dark, sans-serif font.

Designed to Perform

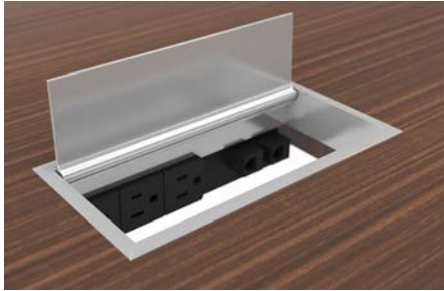

V2 Conference Sustainability

V2 is a conferencing solution that supports environmental sustainability objectives. Non-urea particleboard and glues, FSC®-certified woods, bamboo veneers, and the extensive utilization of recycled and recyclable materials in the product and the packaging - all of these are available on V2, and specifically contribute to LEED credits. V2 has a Greenguard™ certification that, along with the existing certification of all Krug's seating, provides assurance of healthier air quality when specifying Krug.

ENEERS & LAMINATE

Veneers are rift-cut Red Oak, and flat sliced Cherry, Maple, and Walnut. Laminate worksurfaces are available with two options - Laminate Tops with Wood Edge or Laminate Tops with Polymer Edge.

POWER OPTIONS

V2 features one round grommet in standard location per table, which can be upgraded to an optional PowerPort.

MEDIA CASEGOODS

V2 Conference Casegood top surfaces feature the Fino profile at 1 1/8" thickness. Tv Cabinets, Hutches, Buffets, Pedestals, Piers, Visual Boards.

LEGS

The V2 Modular legs feature a Silver Metallic finish and are available with adjustable glides or 2" casters. Wires are channeled through the leg and concealed with a snap-on cover which allows cord access to the top and bottom when required.

V2 Environmental

The use of recycled and recyclable materials, combined with environmentally-friendly production processes and packaging, have made V2 a level™-certified product, and a contributor to LEED™-driven specifications. V2 is certified by the Greenguard™ standard for indoor air emissions, and it's unique capability for extending product life makes it a responsible environmental choice - and one that will provide exceptional return on investment over time.

All products are air emissions certified and are available as FSC® certified
