LEED CI CREDITS

MATERIAL CONTENT:

PRE-CONSUMER RECYCLED CONTENT = 8%

POST-CONSUMER RECYCLED CONTENT = 2%

		CONTRIBUTES TO
Credit 2.1 - 2.2	Construction Waste Management	1-2 point(s)
Credit 3.3	Resource Reuse	1 point
Credit 4.1	Recycled Content	1 point
Credit 4.5	Low Emitting Materials, (MUST BE REQUESTED) Systems Furniture & Seating	1 point
Credit 5.1	Regional Materials*	1 point
Credit 7	Certified Wood (please enquire)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Ando products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard. All Ando products can be supplied with level® certification. In order to accomplish this, the product must also be ordered with the air-emissions-certification option. Contact customer service for information and upcharges.

FSC® C021699

the mark of responsible forest

AIR-EMISSIONS

All Ando products can be supplied with air-emissions-certified materials. Contact customer service for information and upcharges.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. V2 and other Krug products can be specified with one of two types of FSC® Certification: (a) FSC®-certified (which includes FSC®-certified lumber, veneer and substrate material) (b) FSC®-mix certified (which includes substrate material only, and is a lower cost option certification) Contact customer service for further information, pricing and lead times.

In addition, architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ANDO | PRODUCT FEATURES

TABLES

Tops and gables are 2.5" thick plywood core with face, back and edge veneer. Plastic Laminate tables are self edged. Standard laminates will show a visible dark line where the laminate edges meet, to avoid this line color-core laminates can be specified. Please contact customer service for a quote.

SUPPORT

Construction integrates an internal support system that eliminates the need for any visible support under the table top.

MITERED CORNER

The Ando table worksurface is joined to the side panel legs with a 45° angle miter joint indicative of the highest level of craftsmanship.

VENEER

Ando table veneers are quarter cut, except for White Oak, which is rift cut - both quarter cut and rift cut veneers provide a straight grain appearance.

FINISH

A five step catalyzed varnish finish that when dry has a sheen value of 32°, is applied to all finished cases. A lower sheen topcoat, 20°, can also be specified at standard pricing. All purchase orders must clearly note "lower sheen finish" in order to receive the optional selection.

GLIDES

Adjustable glides are 1 1/2" long and allow for a range of adjustment of 1". Glides are installed at the factory.

POWERPORT

A PowerPort is a unique worksurface mounted module that can be specified to a location that best serves the user's needs. It includes a UL approved electrical, power bar, containing two 115 - volt electrical simplex outlets which are accessible from the work surface, plus a utility outlet at the end for daisy chaining purposes. 3 data versions are available and can be custom configured.

PORT

A service module having no power bar will serve as a large grommet. A hinged lid easily enables the passage of several cables and devices.

HORIZONTAL CABLE MANAGEMENT

This includes a Protective Electrical Cover that covers the power/data module. A grey plastic cable manager carries the cords to the Vertical Cable Manager on the gable.

VERTICAL CABLE MANAGEMENT

This cable manager is clear satin anodized aluminum extrusion with clip attachment that carries from the underside of the top to the floor.

ANDO | POWERPORT LOCATION, SUGGESTED SEATING, SAMPLE CONFIGURATION

STANDARD POWERPORT LOCATIONS

MIDDLE POSITION

For 60", 66", 72" & 84" tables

For 96" tables only

NOTE: Workspace clearance of Middle positions:
 24" depth - 10" from powerport to table edge
 30" depth - 13" from powerport to table edge
 36" depth - 16" from powerport to table edge
 42" depth - 19" from powerport to table edge

OFFSET POSITION

For 60", 66", 72" & 84" tables

For 96" tables only

NOTE: Workspace clearance of Offset positions:
 All depths - Non-user side - 7" from powerport to table edge
 24" depth - User side - 13" from powerport to table edge
 30" depth - User side - 19" from powerport to table edge
 36" depth - User side - 25" from powerport to table edge
 42" depth - User side - 31" from powerport to table edge

SUGGESTED SEATING BY TABLE SIZE

- 60" - 2 per side
- 66" - 2 per side
- 72" - 2 per side
- 84" - 2 per side
- 96" - 3 per side

CAUTION: Ando tables are shipped in one piece and are large & heavy. Please ensure consideration is taken regarding widths of entrances, aisles and stairways for maneuvering tables into office areas. If packing pallets need to be removed prior to the table getting into the office please ensure the bubble wrap material is left on the table to prevent damage during the move-in process.

ORDERING PROCEDURE

To order, please specify the following:

- 1) Krug product model number
- 2) Wood species and finish
- 3) Grommet location and style if applicable

*indicates model illustrated by line drawing.

STANDARD FINISHES

For a complete list of standard wood finishes please see page 347.

GROMMETS

One grommets in standard position are available at no additional charge.
