## NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## CUSTOM WOOD FINISHES

Add 10% list to your order for special finishes, minimum upcharge is \$630 list per finish per order. (For example, on all orders up to \$6300 list, an upcharge of \$630 will apply, on orders \$6300 and up add 10% list to your order.)

For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## DUAL FINISHES

Add 10% list per item if specifying dual finish.

## VENEER

Millennium veneer is flat cut

## BIRDSEYE MAPLE OPTION

Bookmatched Birdseye Maple veneer is available on Millennium at an upcharge of \$76 list per square foot. Specify clearly on order. Birdseye Maple is recommended in clear finish only. Birdseye Maple only applies to tops.

## LAMINATE WORKSURFACE OPTION

Millennium worksurfaces are available laminate at an upcharge of 10% (a higher upcharge may apply to specially priced plastic laminates). Where there are wood profile edges on worksurface tops, they will remain as wood profile on laminate tops. Krug will order and procure laminates. Purchase orders with a plastic laminate option must include Laminate name. When specifying laminate worksurfaces, the grain direction is such that the grain pattern runs the length of each surface, as shown in the diagram on the right. Please contact Krug Customer Service for questions pertaining to laminate grain direction.

## LAMINATES

Krug's in-stock Laminates are available in 17 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Polymer Edge will be selected to match the worksurface. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

On single piece hutches, the yardage requirement for two tackboards is the same as for one tackboard. Please keep this in mind when ordering more than one tackboard. For example, if the number of tackboards required is 7 and the COM requirement for 1 tackboard is 1.5 yards, the calculation for COM yardage is as follows: 4.5 yards are required for 6 tackboards + 1.5 yards for the 7th tackboard for a total of 6 yards. In the case of an even number of tackboards, divide the number of tackboards required by 2 and multiply that number by COM requirement on the chart. The fabric must be at least 54" wide in order to qualify for this procedure. If the fabric is less than 54" wide, the COM yardage listed on the chart is the amount required for each tackboard.

## DESKS WIRE MANAGEMENT CAVITY

Millennium desks can also be specified with a hidden wire management cavity. This finished cavity is accessed from the front of the desk by a hinged door and is completely concealed in the closed position. The wire management cavity includes a four receptacle power bar mounted on the inside pedestal gable. Cords run down the right hand side of the tasklight to the work-surface where they can be routed behind the worksurface top. The use of a wall mounted tackboard conceals the cord from view. Tackboards must be ordered separately and can be specified in any fabric grade (1-9. Wall mounted tackboards for overheads are supplied with all necessary hardware for installation. Locks are optional on overheads and can be specified at time of order for an upcharge of **\$159 list** per set of (2) doors.

## HEIGHT ADJUSTABLE WORKSURFACE WITH BASE ENCLOSURE

### Single Stage Mechanism With Base Enclosure

The Single Stage mechanism with Base Enclosure has an adjustable height range of 28 3/8 - 47 1/4 inches. When the worksurface is at the lowest stage - desk height, the space between underside of the worksurface and the top of the Base Enclosure is 1 1/2 inches.

### Dual Stage Mechanism With Base Enclosure

The Dual Stage mechanism with Base Enclosure has an adjustable height range of 23 3/4 - 49 3/4 inches. When the worksurface is at the standard desk height setting of 28 7/16", the space between underside of the worksurface and the top of the Base Enclosure is 6 inches. This allows for the full range of height adjustments. Custom Base Enclosures for the Dual Stage are available decreasing the gap below the worksurface to 1/2 inch. Caution: this eliminates the ability to use the lower stage settings. Custom Base Enclosures to further lower the minimum worksurface height are also available, removing the inside enclosure floor completely and allowing a minimum desk height of 22 7/16". ## CONNECTING WORKSURFACES

It is important that the product is in its final position and the primary work surface is leveled before connecting other joining pieces. Detailed installation instructions are included with each unit, or available from Krug Customer Service. Units are connected with mending plates under work surfaces, and linking brackets on modesty and end panels. Locate connections and attach the mending plates under the work surface. Level pieces if necessary by adjusting the glides to achieve flush and firm joints before completing installation of all hardware.

## DRAWER REMOVAL

To remove pedestal drawers, open to the extended position, press down on the right side nylon release lever and pull the drawers up on the left side lever at the same time. Continue pulling the drawers out of the case.

## GLIDE ADJUSTMENT

Raise one corner of the unit at a time and adjust the glide to the desired height by turning the glide in the hole. Make sure unit is level after adjusting the glides. Please note that the maximum adjustment range of the glides is 1 1/2". When moving units after glides have been inserted, dial the glides to the lowest position to prevent damage to the case.

## BOOKCASE OR HUTCH DOOR ADJUSTMENT

Hinges on all hutch and bookcase doors are designed to be adjusted for depth, horizontal and vertical adjustment by means of screws into the hinge mounting plates. To remove a door, squeeze the release clip and pull out the door, disconnecting the hinges.

## OVERHEAD INSTALLATION

The wall mount overhead storage units must be installed on wall studs. The first step for installation is to locate the studs in the wall where the overhead is to be mounted. Measure the stud center line location and use this measurement to mark the hole locations on the mounting rail and the overhead back. Drill clearance holes at the hole locations. Hole requirements will depend on the fasteners chosen by the installer. 2 1/2" x #10 wood screws are adequate if going into wood studs. If studs cannot be accessed, then appropriate drywall plugs or butterfly bolts should be used. We recommend 2 fasteners per stud. Fasten the mounting rail to the wall ensuring that it is level. Hang the overhead on the mounting rail and then fasten it to the wall. This prevents accidental removal and also allows for some leveling adjustment.

## Care and Maintenance

**Wood Finishes** - Although Krug's extensive finishing process ensures a durable finish on all our products, there are several steps that can be taken to protect and prolong the life and beauty of the finish. Protect the top by placing felt pads on the bottom of any accessories and mechanical equipment. Rubber and oil will permanently mark surfaces. Use a desk pad to prevent possible damage and imprinting caused by writing instruments and sharp objects. Dust only with a clean, dry cloth, going with the grain. Clean any marks with a damp cloth, using a small quantity of mild soap or detergent. Do not use any wax-based polish, spray or silicone. Eventually, a film will build up and discolor the top. Do not place your furniture in a position of permanent exposure to direct sunlight.

**Plastic Laminates** - Clean plastic laminates with mild soap and warm water. Do not use steel wool, hot water, or any abrasive cleaning product.

## KRUGEXPRESS CASEGOODS

### CASEGOODS PROGRAM DETAILS\*

\*(In addition to previous page)

Orders for casegood products on the KrugExpress program may be subject to quantity maximums. Please contact Krug Customer Service for more information. Quantity maximums are dependent upon available capacity, in order to insure that we ship all orders on time. Only actual casegood pieces and conference tables tops and bases are considered "units". Items such as tasklights, tackboards, keyboard trays and drawers, electrical and wire management components, etc., are not considered under the quantity restrictions.

For example, a typical office configuration that includes a desk, linking unit, credenza and hutch/overhead, equals a total of four units for the purposes of the quantity maximum. Only Krug In-stock panel fabric is available on the KrugExpress program. Only standard wood finishes are available for KrugExpress orders. Grommets can be specified in standard positions only. KrugExpress also includes all Krug seating and occasional tables as well as Krug conference products to complement this casegoods offering. Please note PALETTE finishes are not available on KrugExpress.

## CUSTOMER'S OWN MATERIAL - C.O.M.

### Customer's Own Material (COM)

**COM must be received three weeks prior to the acknowledged ship date. Orders with COM not received by the required deadline will be delayed.**

A description of the fabric, including supplier name, fabric name and color number must be included with the purchase order. When the COM fabric is received at Krug, it must be clearly identified with the fabric name and color, and tagged with name of the Krug customer and purchase order number. Krug will inspect all COM fabric when received to determine if it will be suitable for upholstery. Where Krug feels that the fabric or leather specified will compromise the quality or integrity of our products, customers will be contacted to direct these concerns. Further, Krug reserves the right to refuse to accept and use any COM fabrics or leathers that will compromise our products in any way that is unacceptable to Krug. Krug cannot assume responsibility for the durability or tailoring quality of customer's own material. Yardage specified in this price guide is approximate. In the case of multiple product orders, multiply the number of items by the COM yardage specified to determine fabric required, unless otherwise indicated. Additional yardage may be needed if the material is less than 54" wide, or patterned or striped and requires matching. As fabric is applied horizontally, non-directional fabrics are recommended. COM fabrics are applied as they come off the roll unless otherwise specified. All striped fabrics will be applied vertically unless otherwise stated by the customer and after approval by Krug. It is the customer's responsibility to advise Krug if the upholstery is to be applied otherwise, and to advise Krug of any special upholstery instructions. Special instructions should be sent to Krug Customer Service, including a sample (or photocopy) of the fabric. Krug is not responsible for instructions sent with the fabric rolls, or for the method of upholstery if no instructions have been provided. COM fabrics for tackboards may be specified in either Maharam or

Momentum panel fabrics. Krug is not responsible for determining if a fabric is not ideal for tackboard application.

Please contact Maharam at 1-800-645-3943 or Momentum at

### COM Shipping Procedures

**For tackboard COM fabrics, please send fabrics to:**

**Krug Inc.**

**111 Ahrens Street**

**Kitchener, Ontario**

**Canada N2H 4C2**

**Attention: RECEIVER**

All packages must be clearly marked "For Customs Clearance by Willson International Custom Brokers". According to the North American Free Trade Agreement (NAFTA), goods shipped between the United States and Canada can qualify for exemption from all duties, or for a reduction in duties, if the goods can be proven to originate in either the United States, Canada or Mexico. Canada Customs requires that a NAFTA Certificate of Origin and a Commercial Invoice be completed and sent with the fabric shipment. The Commercial Invoice must clearly state the description of the fabric, the selling price, the make-up or content, and the purchaser. The absence of these two documents will delay the shipments at the U.S./Canada border, thereby potentially delaying the customer order. If the total value of the shipment is less than \$1200 U.S., Customs will accept a Low Value Statement of Origin in place of the NAFTA Certificate of Origin. The Low Value Statement must be signed by a representative of the exporting company. This statement may either be included on the commercial invoice or attached to the invoice. Krug is happy to answer any questions or concerns about COM shipping procedures and the required documents. Please contact our Customs Specialist at 1.888.578.5784.
