LEED CI CREDITS

MATERIAL CONTENT:

PRE-CONSUMER
RECYCLED CONTENT = 16%

POST-CONSUMER
RECYCLED CONTENT = 22%

CONTRIBUTES TO

CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, (PLEASE ENQUIRE) Composite Wood & Laminate Adhesives	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (PLEASE ENQUIRE)	1 point

^{*} This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Toronto, Ontario.

The above information regarding LEED contribution applies to both the upholstered as well as mesh back versions.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Solis products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS

All Solis products are supplied with air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It verifies that the material for our FSC® certified products only come from well-managed, FSC®-certified forests and other controlled sources. FSC® is dedicated to the promotion of responsible forest management worldwide helping to take care of forests for future generations. Solis and other Krug products can be specified with FSC® Certification. Contact customer service for further information, pricing and lead times.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SOLIS | FEATURES & OPTIONS

CLEAN OUT

All Solis seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquids to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Solis to well exceed ANSI/BIFMA standards. Rounded arms provide support for safe and easy ingress and egress.

HIGH DENSITY FOAM

Solis features dual density foam that is soft on the outside for comfort, dense on the inside for high durability. The seat and back foam features a compound curvature that supports healthy sitting postures, while also designed to ease ingress and egress.

FLEX BACK

Solis sets a new standard for comfort and ergonomics in healthcare seating. The ergonomically-designed back has a slight flexing action, which significantly enhances comfort.

URETHANE ARM

Solis arms are durable, comfortable, and long lasting. Urethane arms are available in three color options; Black, Grey and Taupe.

WOODEN ARM

Wood arms are available in either beech or maple hardwood and in 22 Krug standard finishes. Maple arm caps are available for an up-charge of \$84 list per arm using beech pricing.

REPLACEABLE COMPONENTS

Solis chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significally extend the life of the product. Seats, backs, arms, frames and casters are field replaceable. Pricing and model numbers can be viewed online at www.krug.ca.

TUBULAR STEEL CHAIR FRAME

The overall aesthetic frame of the chair is built from structural steel tubing, both elliptical and rectangular for exceptional strength and appealing design. The frame is electro welded and polished joints for ease of cleaning and a one piece look. Available in eight powder-coated finishes. Silver Metallic is offered as Krug's standard finish.

GLIDES

Solis legs feature plastic glides. Floor-saver felt glides, non-slip rubber glides, metal glides and floor-saver nylon glides are all optional at an upcharge. Please see chart on Page 645 for more information.

METAL FINISH OPTIONS

Silver Metallic frames are available with an anti-microbial finish for an upcharge of \$67 list per arm frame pair or table. Additional Frame Finishes, which include anti-microbial finish, are available for an upcharge of \$67 list per per arm frame pair or table. Available colors are: White, Parchment, Sand, Taupe, Warm Grey, Cool Grey or Black. For all metal finishes other than Silver Metallic Standard, there is a minimum order quantity of 30 units per color. Upcharges for order quantities less than 30 units per color or custom metal finishes, please contact Customer Service to obtain a quote.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility. Patient and Guest chairs with mesh backs are excluded as they do not have the wall saver feature.

LATEX-FREE

Krug products are made with latex-free materials, to prevent the allergic reaction that latex causes in some people.

GANGING

All Solis Freestanding chairs can be ganged using a ganging bracket. The powder-coated metal plate is fastened to the underside of the steel side rails using the pre-existing holes in the frame.

EASY ACCESS ADJUSTABLE GLIDES

With the larger footprint of this chair and critical importance of stability for the user, we have included adjustable glides on the front legs - this allows the Easy Access chair to be perfectly leveled to any floor for maximum safety and stability.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

WEIGHT CAPACITIES

Weight capacities are as follows: Guest & Patient Chairs (21" & 24") - 500 lbs Plus Chairs (30" & 44") - 750 lbs Multiple Seating & Pre-configured - 500 lbs per seat 2-Seat Freespan - 525 lbs per unit 3-Seat Freespan = 750 lbs per unit

PLUS UPGRADE

Solis 30" and 44" models feature Plus Upgrade. Plus Upgraded seating has been engineered to support higher weight capacities, accommodating a wider variety of users.

SOLIS | OPTIONS

ADJUSTABLE HEADREST

The adjustable headrest uses dual density foam providing excellent support and comfort. The headrest is securely fastened using an innovative clip allowing the headrest to be easily removed for cleaning and/or replacement. The headrest is easily adjusted by sliding the headrest vertically allowing the user to maximize their comfort.

EASY CLEAN BACKREST COVERS

Easy clean backrest covers are available on all mesh back Patient chairs. They are removable, replaceable and cleanable. The easy clean backrest cover features a foam interior for comfort and durability.

WOOD SIDE RAILS

Solis can be specified with solid wood side rails, which, along with the selection of wood arms and a choice of metal finishes, provides a warmer look and feel. All Solis wood components feature Krug's high durability Enduraguard finish. Wood Side Rails are available for an upcharge and are not available with closed arm panels.

CASTERS

Casters are available on all 21" and 24" guest and patient chairs. Two rear hard wheel casters or four hard wheel casters are available for an upcharge per chair. The option of soft wheel casters can be ordered for additional upcharge. Both hard and soft caster options are standard non-locking but can be specified locking at no additional charge. The Solis caster is not a heavy-duty caster - it is designed and rated for normal use and load bearing, but has the potential to fail with excessive use, force, or weight. The caster was designed to allow the chairs to be moved for ease of cleaning and furniture arranging. Krug is not responsible for caster breakage under any circumstances. Solis casters are field replaceable.

KINETIC BACK OPTION

This optional feature provides the chair back with a very pleasant and comfortable rocking motion, which can significantly enhance long-term sitting for patients and guests alike. The durable spring-loaded mechanism provides a range of motion of 20 degrees, and can be field-installed or replaced. It's available on any Solis chair back - Guest, Patient and Multiple Seating - with the exception of the 30" and 44" sizes.

SOLID SURFACE ARM

The optional Solid Surface Arm provides enhanced durability, protection and cleanability for the arms. This is field replaceable if this becomes damaged or degraded and is available in 8 standard colors. See Page 643 for color selection.

CAL133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the uphostered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$962 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information.

REMOVABLE COVERS & REPLACEMENT COMPONENTS

Optional Removeable seat and back covers can be quickly installed on Solis products that were originally ordered with the Removable cover option. Replacement seat and back covers can also be installed on Solis products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs. Complete Mesh backs can be ordered and field replaced.

CLEANABLE UNDER-SEAT SPLASHGUARD

All Solis seating models are available with a plastic moisture barrier that covers and encloses the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard significantly enhances the germ resistance properties of the product, by enclosing the part of the chair that can be most susceptible to infection-causing pathogens. The Splashguard is a smooth, easy to clean surface, either while on the chair or when removed, and is also field replaceable. The upcharges for the Splashguard are based on the size of the seat.

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is specified with fabric of the same grade or COM, an upcharge for dual fabrics is \$34 list per unit and \$67 list per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest grade upholstery selected or to obtain a quote for blended grading contact Customer Service (please provide the fabrics specified and location of where each fabric is to be applied on the product).

Multiple yardage requirements can also be used for Guest Back Easy Access chairs and Guest Back Start, Center, End Multiple seating.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Solis seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.

For Maharam, Momentum or CF Stinson, Krug will obtain the fabric sample.

- 2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
- 3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

SOLIS | ENVIRONMENTAL SUMMARY

LEED CI CREDITS

PRE-CONSUMER
RECYCLED CONTENT = 17%

POST-CONSUMER
RECYCLE CONTENT = 22%

CONTRIBUTES TO

CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials,	
	Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood	1 point(s)
	(MUST BE REQUESTED)	

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Solis products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS

All Solis products are supplied with air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It verifies that the material for our FSC® certified products only come from well-managed, FSC®-certified forests and other controlled sources. FSC® is dedicated to the promotion of responsible forest management worldwide helping to take care of forests for future generations. Solis and other Krug products can be specified with FSC® Certification. Contact customer service for further information, pricing and lead times.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

Multiple yardage requirements can also be used for Patient Back Easy Access chairs and Patient Back Start, Center, End Multiple seating.

Note: Some vinyls, leathers & fabrics may not be suitable for application on Solis seating.

The approval process is as follows:

- 1. A sample of the COM. must be provided to Krug Customer Service prior to or at the time of order. For Maharam, Momentum or CF Stinson, Krug will obtain the fabric sample.
- 2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
- 3. The COM. fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

SOLIS | PATIENT I UPHOLSTERED BACK

Solis Patient Chairs with Upholstered Backs are available in 21", 24" and 30"

SOLIS | PATIENT I MESH BACK

Solis Patient Chairs with Mesh Backs are available in 21" and 24" widths only.

ORDERING NOTES: Complete Mesh backs (21" & 24") can be ordered and field replaced. The standard **Solis Frame Color** is Silver Metallic. Additional frame colors are available for an upcharge of **\$67 list** per arm frame pair, please see page 24 for color selection. Silver Metallic frames are available with an anti-microbial finish for an upcharge of **\$67 list** per arm frame pair or table.

Closed Arm Panels (per chair) - please add the following up charges for closed arm panels.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Solis products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS

All Solis products are supplied with air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It verifies that the material for our FSC® certified products only come from well-managed, FSC®-certified forests and other controlled sources. FSC® is dedicated to the promotion of responsible forest management worldwide helping to take care of forests for future generations. Solis and other Krug products can be specified with FSC® Certification. Contact customer service for further information, pricing and lead times.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SOLIS BEHAVIORAL HEALTH | FEATURES

CLEAN OUT

All Solis seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquids to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Solis to well exceed ANSI/BIFMA standards.

FLEX BACK

The ergonomically-designed back has a slight flexing action, which significantly enhances comfort.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility. Patient and Guest chairs with mesh backs are excluded as they do not have the wall saver feature.

HIGH DENSITY FOAM

Solis features dual density foam that is soft on the outside for comfort, dense on the inside for high durability. The seat and back foam features a compound curvature that supports healthy sitting postures, while also designed to ease ingress and egress.

SECURED WOODEN ARM

Solis Wood Arm caps are fastened to the side frames with tamper resistant security screws. Wood arms are available in either beech or maple hardwood and in 22 Krug standard finishes. Maple arm caps are available for an up-charge of \$84 list per arm using beech pricing.

URETHANE ARM

Solis secured urethane arms are durable, comfortable, and long lasting. Urethane arms are available in three colors options; Black, Grey and Taupe.

TAMPER RESISTANT HARDWARE

All screws used on the Solis Behavioral Health units have been replaced with tamper resistant security screws.

GANGING

All Solis Freestanding chairs can be ganged using a ganging bracket. The powder-coated metal plate is fastened to the underside of the steel side rails using the pre-existing holes in the frame.

SECURED GLIDES

Solis Behavioral Health chairs have their glides secured in place to prevent their removal and damage.

BOTTOM STAPLE COVER/SHIELD

Solis Behavioral Health chairs come standard with a black painted plywood cover underneath the seat. This cover is designed to prevent access to the upholstery staples of the seat and to prevent the hiding of objects underneath the seat. The cover is also designed to allow for regular ganging hardware and proper seat ventilation. The cover is secured to the unit with tamper resistant security screws.

BACK STAPLE COVER STRIP

The Solis Behavioral Health back upholstery has been altered to allow a staple cover strip to be attached; this will prevent access to the upholstery staples. The cover strip is nylon coated galvanized steel with vinyl coated ends to prevent any sharp edges. The back cover strip is fastened to the unit with tamper resistant security screws.

TUBULAR STEEL CHAIR FRAME

The overall aesthetic frame of the chair is built from structural steel tubing, both elliptical and rectangular for exceptional strength and appealing design. The frame is electro welded and polished joints for ease of cleaning and a one piece look. Available in eight powder-coated finishes. Silver Metallic is offered as Krug's standard finish. For all metal finishes other than Silver Metallic, there is a minimum quantity of 30 units per color and are available for an upcharge of \$67 list per seat/table. Microban anti-microbial finish is standard, with no upcharge, when frame finishes other than Silver Metallic is ordered. Solis Silver Metallic frames are available with an anti-microbial finish for an upcharge of \$67 list per chair or table. Upcharges for quantities less than 30 units per color, per order can be obtained through Customer Service.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

LATEX-FREE

Krug products are made with latex-free materials, to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Weight capacities are as follows: Guest & Patient Chairs (21" & 24") - **500** lbs Plus Chairs (30" & 44") - **750** lbs

SOLIS BEHAVIORAL HEALTH | OPTIONS

SLED BASE

KINETIC BACK OPTION

This optional feature provides the chair back with a very pleasant and comfortable rocking motion, which can significantly enhance long-term sitting for patients and guests alike. The durable spring-loaded mechanism provides a range of motion of 20 degrees, and can be field-installed or replaced. It's available on any Solis chair back - Guest, Patient and Multiple Seating - with the exception of the 30" and 44" sizes.

CLOSED ARM

Solis closed arm has an upholstered arm panel built into the side frame. It is between the middle rail on the side frame and the top of the arm.

FULLY CLOSED ARM (SLEIGH BASE ONLY)

The fully closed arm includes the regular closed arm, but also adds a second upholstered arm panel between the middle rail on the side frame and the sleigh base bottom. This feature is only available when the sleigh base option is selected.

FLOOR ANCHOR BRACKETS (SLEIGH BASE ONLY)

Floor mounting brackets are supplied to be secured to the bottom of the Solis sleigh base with tamper resistant security screws. The hardware to attach the brackets to the floor is not provided by Krug.

WEIGHTED SHIELD

In place of the Bottom Staple Cover, a weighted black coated steel version is also available. This steel shield is designed to add enough weight for the product to be a minimum of 80 lbs. The shield is also designed to allow standard ganging hardware as well as proper seat ventilation. This is all achieved while also covering/ preventing all access to the upholstery staples under the seat. The Weighted Shield is fastened with tamperresistant security screws.

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is specified with fabric of the same grade or COM, an upcharge for dual fabrics is \$34 list per unit and \$67 list per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest grade upholstery selected or to obtain a quote for blended grading contact Customer Service (please provide the fabrics specified and location of where each fabric is to be applied on the product).

ANTI-MICROBIAL FINISH

Solis Silver Metallic frames are available with an antimicrobial finish for an upcharge of \$67 list per chair or

CAL133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for

seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the uphostered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$962 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for \$67 list per yard.

REMOVABLE COVERS & REPLACEMENT COMPONENTS

Optional Removeable seat and back covers can be quickly installed on Solis products that were originally ordered with the Removable cover option. Replacement seat and back covers can also be installed on Solis products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs. Complete Mesh backs can be ordered and field replaced.

NO SPRING SEATS

The springs in the seat have been removed and replaced with a solid plywood seat pan, Additional foam has also been added in place of the springs for comfort.

TAMPER-RESISTANT SPLASHGUARD

All Solis seating models are available with a coated steel moisture barrier that covers and enclosed the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard replaces the Bottom Staple Cover on the underside of the seat. It is designed to still allowing ganging and has folded metal edges to prevent any sharp edges. The splashguard is fastened with tamper resistant security screws.

CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

^{*}This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Solis products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS

All Solis products are supplied with air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It verifies that the material for our FSC® certified products only come from well-managed, FSC®-certified forests and other controlled sources. FSC® is dedicated to the promotion of responsible forest management worldwide helping to take care of forests for future generations. Solis and other Krug products can be specified with FSC® Certification. Contact customer service for further information, pricing and lead times.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SOLIS | TABLES, FEATURES & OPTIONS

STANDARD FINISHES

Solid Beech & Maple edges with Veneer tops. For a complete list of standard wood finishes, please see **Page 642**. Solis tables are available in 22 standard finishes.

LAMINATE AND POLYMER EDGE

Solis tables are available in laminates with wood or laminates with Polymer edge.
See page 643 for laminate information.

METAL FINISHES

Silver Metallic Standard - No Upcharge Silver Metallic frames are available with an anti-microbial finish for an upcharge of \$67 list per arm frame pair or table. Additional Frame Finishes are available for an upcharge of \$67 list per seat/ table.

Available colors are: • White • Parchment • Sand • Taupe • Warm Grey • Cool Grey • Black

For all metal finishes other than Silver Metallic Standard, there is a minimum order quantity of 30 units per color. The anti-microbial finish is included in the additional finish up-charge. Upcharges for order quantities less than 30 units per color or custom metal finishes, please contact Customer Service to obtain a quote.

ORDERING NOTES:

Linking tables can be ordered in conjunction with any of the Krug Solis Multiple Seating. Linking tables are connected to the Multiple Seating via U-Shaped brackets. The design of the tables for Solis Multiple Seating allows for any table to be very easily added or moved to a new position within the configuration - or completely replaced - after the product has been first installed. The attachment of the tables is designed so that they can be readily be taken out of the configuration without any defacing of the adjoining seat frames.

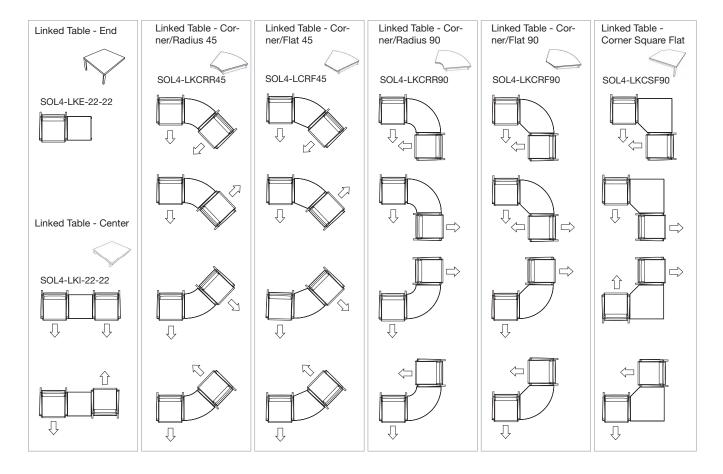

Linking tables also feature a universal, non-handed design:

They can be moved to reverse position in almost every configuration, providing a high level of flexibility for reconfiguring.

Please note Solis Plastic Laminate Linking Tables are not available on KrugExpress.

Wood Tops with Wood Edges are available on KrugExpress but with a minimum order requirement of 5 tables per order.

A drawing showing the configuration of the multiple seating and tables are required with each purchase order.

GENERAL INFORMATION

Terms and Conditions

Net 30 days on approved credit. A late payment charge of 1% per month will be applied on overdue invoices. This charge will be pro-rated to the number of days past 30 days that the invoice is overdue. All applicable sales taxes are extra. Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Krug dealers. Acceptance of any order and terms of sale may be established at the discretion of Krug. Deposits are required on orders received from new accounts as well as on large or special orders. Krug reserves the right to discontinue designs, or to change designs, construction, prices, or materials without notice.

Customer Service Hours

Please note customer service hours are:

8:30 am to 5:00 pm est

Customer Satisfaction

It is the primary goal of Krug and our staff to ensure the complete satisfaction of our customers with our products and performance. If a problem arises with a Krug product after the expiration of the limited warranty period, Krug will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

Order Acknowledgments

Each order will be acknowledged via e-mail or fax. This acknowledgments is the final agreement between Krug and the customer, superseding all previous communications regarding the purchase order. Where there is a discrepancy on a purchase order between a product code and a description, Krug will make every effort to resolve the discrepancy, but will be ruled by the product code ordered. Please check all acknowledgments for accuracy, and advise Krug of any discrepancies with a purchase order.

Order Cancellation

Krug reserves the right to not accept or allow cancellation of orders. All products are manufactured on a custom-made, make-to-order basis, and the purchasing, engineering and production of orders begins shortly after order placement - and the customer purchase order is a contract that authorizes Krug to manufacture the products. Acceptance of order cancellation (or partial cancellation) is solely at the discretion of Krug, and is dependent on the extent to which engineering, purchasing and manufacturing has been initiated by the time cancellation is requested. No order cancellations (partial or otherwise) are allowable more than 4 weeks from date of order placement (as order production is unable to be terminated by that point), and full payment of the acknowledged order value is required for any orders cancelled after 4 weeks. Cancellations may be allowable in less than 4 weeks after order placement, depending on the extent to which manufacturing has been initiated. An acceptance of order cancellation requires that the purchaser agrees to make payment for all costs incurred to the point of acceptance of cancellation. Cancellation charges include all costs for purchase of dedicated material and components, engineering costs for non-standard products, and all costs for manufacturing completed to that point, as well as a \$367 net charge for processing of the original order and for processing of cancellation invoicing.

Pricing

Krug endeavors to ensure that all prices in this price list reflect accurately our current prices. However, errors do occur and will be rectified through notices to the field. Krug reserves the right to acknowledge pricing that may be different from the price list.

Storage Charges

Krug reserves the right to assess a nominal storage charge if a customer does not accept shipment of an order within a week of the ship date.

Warranty

Krug warrants the construction and the finish of all our products to be free from defects in materials and workmanship for the lifetime of their use. This warranty is applicable to products in use by their original purchaser. This warranty does not apply to components not manufactured by Krug including textiles, which are subject to the specific warranties of those manufacturers, if any. Textiles (fabric, leather, vinyl, or any other covering material) suppliers do not guarantee their products for durability and color fastness, and nor does Krug. Casters, mechanical and electrical components have a warranty of five years from the date of purchase. The Krug warranty does not apply to COM-specified materials, damage caused by a carrier other than Krug, or variation in wood finishes due to natural wood color variation. Krug cannot be held responsible for variations in fabric dye lots from order to order. All fabric is carefully inspected when it is received, but a degree of variation in color should be expected. Repairs or replacement of any defect covered under this warranty by Krug will be made, at our option and method, at no charge to the original purchaser during the warranty period. Krug's judgement is final and binding with respect to the nature or cause of defects or damage, and the necessity or manner of repair or replacement.

This warranty does not apply to defects or damage resulting from:

- normal wear and tear occurring with the use of the product
- negligence, misuse, excessive use, alteration, improper cleaning or repair
- substitution or use of incorrect or unauthorized components or material
- handling or installation that is incorrect, or that causes damage or defect
- · damage incurred by a freight carrier other than Krug
- wearing of finishes and fabrics, and normal variations in materials (including dye lot variations)
- · properties of natural materials, including wood and leather
- exposure to environments with uncontrolled temperature and humidity (products must be transported, stored and used in climate-controlled conditions)

Note, specific warranties for components and materials not manufactured by Krug:

Jordan Sleepers Heavy-Duty Mechanism, made with heavy gauge steel and minimal moving parts - is backed by a 5-year warranty on the mechanism itself, in addition to the lifetime warranty on the rest of the product. If it does become damaged or degraded, the mechanism can be field-replaced.

Juno and Trevisa Overbed Tables have a 2-year warranty.

Blanket Wrapping

Krug will blanket wrap larger seating orders at customer's request. Please indicate on your purchase order and contact Customer Service.

Export Packaging

Krug is pleased to provide the option for export packaging on all our products, to provide additional protection from damage. For shipments overseas, a quote for export packaging can be provided, based on the products to be ordered and the delivery destination please contact Customer Service or Bids & Specification Support for more information and a quotation. KRUG is not responsible for shipment damage occurring on overseas shipments

Export Packaging is STRONGLY RECOMMENDED for: (A) all shipments outside of the lower 48 states and Canada.

(B) all shipments that will be held in storage for an extended period prior to installation.

Important: Please note that Krug will not be responsible for damage claims on product shipped or stored in the above conditions but where export packaging has not been utilized.

Dimensions

Dimensions are in inches and approximate, and subject to change without notice. Contact Customer Service if dimensions are critical.

GENERAL INFORMATION

Freight Terms and Conditions

- 1. All product is shipped FOB the Krug factory. Freight is either pre-paid to the destination or not pre-paid, depending on established customer specific freight terms.
- 2. Docks at the selected delivery location must be equipped to handle a 53' trailer. If a dock is inadequate for delivery by Krug, Krug will re-deliver to another local location and any additional costs will be charged to the customer.
- 3. For all deliveries, it is understood that Krug or its agent is making a dock delivery only (equipped to handle a 53' trailer), and any further work of truck unloading, delivery beyond the dock, installation, and removal of packaging is not authorized or paid for by Krug.
- 4. Drop shipments to the installation site, and timed deliveries, are available on larger shipments (full truckloads or slightly less) at no additional charge. Drop shipments or timed deliveries for smaller shipments may not be available, or if available will require a surcharge. Deliveries on an after hours basis, or on weekends, or any other special requirements, may be subject to a surcharge. Location and contact information, and the requested time of delivery, is required at least one week prior to the acknowledged shipment date. If this information is not provided one week in advance, or if the location or time of the drop shipment is changed less than one week in advance, a surcharge may be applied, and/or the drop shipment may not be scheduled. For deliveries requested Monday to Thursday after 5:00 pm, please apply a surcharge of \$275/shipment. For deliveries requested Monday to Friday before 7:00 am, please apply a surcharge of \$275/shipment. For deliveries requested Friday (after 3:00 pm) or weekends, please apply a surcharge of \$551/shipment. (local times).
- 5. For all deliveries whether to the Customer location or drop shipment - any circumstances that result in the delay of our carrier (including unsuitable receiving facilities, or facilities not open or available), service charges will be applied at the rate of \$131/hour. Where re-delivery is necessary because of these circumstances, the full cost of re-delivery will be charged. If Less Than Truck Load is delivering, one hour is allocated to unload. Any additional time required to unload after the first hour is \$131/hour. If a Truck Load is delivering the order, three hours is allocated to unload. Any additional time required to unload is \$131/hour. Direct deliveries to site for large orders are possible, (must exceed \$60,000 net), and accommodate 48 - 53' trailers. Krug is responsible for delivery to the approved delivery address. If an address change is required, this must be authorized by Krug 5 business days prior to ship date. Any additional delivery costs incurred after this time will be charged to the customer.

Product Strength and Durability Testing

All Krug products have been thoroughly tested, and exceed the testing requirements of ANSI/BIFMA seating standard. Specific test results and documentation are available on request.

Installation Support

For assistance please contact Technical Support at 1-888-578-5784 x216 or e-mail installationhelp@krug.ca and you will be directed to the appropriate installation support person.

Damaged Shipments

All Krug product is well engineered, carefully inspected, and expertly loaded onto our trucks at our Distribution Center. If you receive any damaged freight, we ask that you do not refuse the shipment. Krug is not responsible for damage to goods that occurs in transit or

storage. It is the purchaser and/or receiver's responsibility to examine the goods upon receipt and to notify Krug of any damages, overages or shortages. Any discrepancies should be noted on the Bill of Lading. The delivering carrier will not accept responsibility for shortages or damages if signed "clear". Notification of concealed damage claims must be made to Krug Distribution within 5 days of delivery, along with digital pictures if available. All product and packaging must be available for inspection. Krug liability ceases after 5 business days and Krug will not be responsible for concealed damages if shipments are left unopened. Krug is not responsible for the condition of product that is stored or installed in an environment where temperature and humidity are not controlled.

Field Product Report Authorization

Krug's written authorization, in the form of an FPR number, must be obtained prior to incurring charges of any kind if Krug is expected to pay these charges. This includes authorization for returns, field repairs and replacements, post field repairs, installation and delivery charges. Krug reserves the right to have its representative inspect product related to any request for such authorizations, prior to that authorization being provided. Deductions from invoices paid for any charges to Krug, without prior written authorization in the form of an FPR, will not be accepted. Digital photographs may be required to complete the FPR process.

Returns

No merchandise may be returned without Krug's prior written consent. In the event of an authorized return, a Field Product Report (FPR) number will be issued, and a restocking charge will apply. Return transportation charges must be prepaid. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packaged in its original or comparable replacement packaging to ensure protection of the product during handling and transportation. Returns on orders duplicated by the customer must be received in their original packaging to be accepted. Product being returned where Krug has authorized its liability for replacement or repair will be thoroughly inspected on its return, and the results compared to the reason for the return stated on the FPR. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Custom Capabilities

Over 15% of our orders involve some type of custom work, and we invite our customers to make use of our extensive capabilities.

These include:

- 1) Dimensional customization of standard size products
- 2) Custom finishes
- For larger orders, completely custom-designed products, as well as non-standard wood species can be specified.

Custom orders may require additional production lead times. Contact Engineering at the e-mail address engquotes@krug.ca.

Care and Maintenance Leather

Leather is a natural product and requires very little care during use. Most stains can be removed with a clean dry cloth. For stubborn spots and stains, use a mild non-detergent cleaner, rinse well and let air dry naturally. Do not use saddle soap, cleaning solvents, furniture polish, oils, varnish, abrasive cleaners, soaps or ammonia waters.

Fabric Upholstery

Professional upholstery cleaning is recommended.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

CUSTOMER'S OWN MATERIAL - C.O.M.

Customer's Own Material (COM/COL)

COM/COL must be received three weeks prior to the acknowledged ship date. Orders with COM/COL not received by the required deadline will be delayed. A description of the upholstery cover, including supplier name, pattern name, upholstery cover name and color number must be included with the purchase order.

COM/COL testing requires 3 business days and samples are to be directed to Customer Service. The customer has the option of providing the sample COM/COL before, at time of order, or once the sample COM/COL is received. If the customer does not send a sample for approval in advance of sending actual material, Krug will not be responsible for the cost of any upholstery cover or other material that it determines to be unsuitable for the product or our process.

When the COM/COL upholstery cover is received at Krug, it must be clearly identified with the upholstery cover name and color, and tagged with name of the Krug customer and purchase order number. Krug will inspect all COM/COL upholstery covers when received to determine if it will be suitable for upholstery. Where Krug feels that the upholstery cover or leather specified will compromise the quality or integrity of our products, customers will be contacted to direct these concerns. Further, Krug reserves the right to refuse to accept and use any COM upholstery covers or leathers that will compromise our products in any way that is unacceptable to Krug. Krug cannot assume responsibility for the durability or tailoring quality of customer's own material.

Yardage specified in this price guide is approximate. In the case of multiple product orders, multiply the number of items by the COM yardage specified to determine upholstery cover required, unless otherwise indicated. Additional yardage may be needed if the material is less than 54" wide, or patterned or striped and requires matching. All COMs are cut "up the roll" unless otherwise stated by the customer. All striped upholstery covers will be applied vertically unless otherwise stated by the customer and after approval by Krug. Krug will not be responsible for directional or positional problems with its application of COM material, unless it has been provided with explicit instructions by the customer. Special instructions should be sent to Krug Customer Service, including a sample (or photocopy) of the upholstery cover. Krug is not responsible for instructions sent with the upholstery cover rolls, or for the method of upholstery if no instructions have been provided.

Price increases and freight charges to COM/COL acquired on the customer's behalf will be passed onto the customer.

Application of Directional Upholstery cover

Some COM upholstery covers will be considered directional by Krug even though they are not considered directional by the supplier. All COMs are automatically cut "up the roll" unless otherwise stated by the customer (please see below).

Non-Standard-Cut across the roll "railroad"

COM/COL Shipping Procedures

For seating COM/COL upholstery covers, please send upholstery covers to: Krug Inc.

111 Ahrens Street Kitchener, Ontario Canada N2H 4C2

Attention: RECEIVER

COM/COL orders cannot be scheduled into production until the upholstery cover has arrived and inspection is complete.

All packages must be clearly marked

"For Customs Clearance by Willson International Custom Brokers".

According to the North American Free Trade Agreement (NAFTA), goods shipped between the United States and Canada can qualify for exemption from all duties, or for a reduction in duties, if the goods can be proven to originate in either the United States, Canada or Mexico.

Canada Customs requires that a NAFTA Certificate of Origin and a Commercial Invoice be completed and sent with the upholstery cover shipment. The Commercial Invoice must clearly state the description of the upholstery cover, the selling price, the make-up or content, and the purchaser. The absence of these two documents will delay the shipments at the U.S./Canada border, thereby potentially delaying the customer order. If the total value of the shipment is less than \$1200 U.S., Customs will accept a Low Value Statement of Origin in place of the NAFTA Certificate of Origin. The Low Value Statement must be signed by a representative of the exporting company. This statement may either be included on the commercial invoice or attached to the invoice. Krug is happy to answer any questions or concerns about COM/COL shipping procedures and the required documents.

CAL 133 & Moisture Barrier

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method which, in combination with non-flammable upholstery covers, may enable the products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this upcharge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL 133 compliant. If official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$962 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of product and upholstery have already been tested. Please contact Customer Service for additional information.

C.O.L. Yardage

To calculate C.O.L. yardage required, please use the following conversions based on COM yardage: Leather must be ordered in square footage.

- 17 square feet in a yard

- Approx. 3 yards in a hide

- Approx. 51 square feet in a hide

- Please use grade 3 pricing for COL

Upholstery Cover Yardage Calculation

To calculate yardage required for COM and other non-standard upholstery cover orders, please contact Krug Customer Service at 1.888.578.5784. Unless otherwise stated, upholstery cover rolls are assumed to be a minimum 54" wide. Please use the guide below to calculate the percentage of extra upholstery cover required to cover large repeats. The repeat is calculated by adding both the vertical and horizontal measurements together and then referring to the chart below for extra yardage required.

		2"-14"	15"-19"	20"-27"	28"-36"
FABRIC	Plain	Repeat	Repeat	Repeat	Repeat
54	0%	10%	15%	20%	25%
53-50	16%	20%	25%	30%	35%
48	16%	25%	30%	35%	40%
45	40%	50%	55%	60%	65%
36	50%	60%	65%	70%	75%

GRADED-IN UPHOLSTERY PROGRAMS

Krug has partnered with several textile brands to grade in their offerings, designed to provide a wide range of upholstery selections for our seating products.

Upholstery pricing and availability is subject to change without notice. We grade this upholstery according to the pricing of the fabric suppliers - when their pricing changes, the Krug grade may change.

When placing an order, a Krug customer must specify the complete upholstery number, along with the appropriate Krug model number and finish. Krug will supply the complete product at the prices listed. Orders specifying graded-in upholstery cannot be cancelled once the upholstery has been ordered.

Upholstery Grades

To determine the price of a product for graded-in upholstery, use the reference lists located on Krug's website under - Products - Textiles, to view the upholstery grade (1-9). Krug is not responsible for the discontinuation of this upholstery. Please contact Customer Service for information on upholstery not listed.

When two upholstery selections are specified for use on seating, the higher grade upholstery price will apply to the order.

High Performance upholstery; Polyurethane, Vinyl or Crypton, is particularly suitable for healthcare and other intensive-use environments.

Upholstery Samples

If you require additional samples or memos for presentation, please contact fabric supplier directly.

Flammability Standards

- Tunnel Test Surface Ratings Class A rating
- Class 1 UFAC
- Passes State of California Technical Bulletin CAL 117-2013

Please contact fabric supplier directly for further flammability information pertaining to specific upholstery.

Special Conditions

Acknowledgments will give the estimated delivery date of the finished product. Some upholstery is imported, and availability may affect estimated delivery time. For large projects, please contact fabric supplier directly for availability of yardage.

KRUG EXPRESS PROGRAM

PROGRAM DETAILS

KrugExpress orders are ready to ship by the date acknowledged. Delivery and shipping schedules may result in actual shipping of orders at a later date. Statutory holidays and scheduled factory vacations may add to acknowledged lead times of KrugExpress orders. Unless otherwise specified on the order, the customer's standard method of shipping Krug products will be utilized.

Available factory capacity for *KrugExpress* is filled by orders received on a "first come, first serve" basis. If the normal KrugExpress lead time is not available for your order because available capacity has been filled, you will be immediately advised of the earliest available ready-to-ship date. Please consult your Customer Service representative in advance if you wish to confirm the specific lead time availability for a *KrugExpress* order.

Orders must be received by midnight of a given day for that day to be considered the official day the order is received. Order lead times are acknowledged from the date the order is received, but not including the date the order is received.

KrugExpress orders must be "clean" when received in order to be considered officially received on a given day, and lead times will be acknowledged from the date orders are determined to be "clean".

Changes to KrugExpress orders are not allowed under any circumstances.

Orders for product on KrugExpress must clearly state: "KrugExpress".

COM and graded-in upholstery is available on Krug Express. Orders are scheduled on Krug Express, and given the best available date, when the upholstery is received at Krug. Some conditions apply.

SEATING & OCCASIONAL TABLES PROGRAM

Orders for seating products on the *KrugExpress* program may be subject to quantity maximums. Please contact Krug Customer Service for more information.

Quantity maximums are dependent upon available capacity, in order to insure that we ship all orders on time. Please note that the CAL 133 option is <u>not</u> available on *KrugExpress*.

Only standard wood finishes are available for KrugExpress orders. Laminates are not available on KrugExpress.

Krug Express includes all Krug seating and occasional tables as well as Krug conference and casegood products to complement this seating offering.

WOOD FINISHES

Standard wood finishes are:

Finishes on Beech

Appalachian Cherry American Cherry Imperial Cherry Light Cherry Medium Cherry Natural Cherry Sable Cherry Standard Cherry

Light Oak Harvest Oak Mahogany Mellow Oak

Espresso

Cordovan Walnut Natural Walnut

Regular Walnut SilverGrey on Walnut

Dark Walnut Clear Beech Medium Anigre

Finishes on Maple

Clear Maple Honey Maple Wheat Maple

PALETTE

Palette finishes available for applicable products. Black White Soft Green Steel Blue Slate

WOOD FINISHES TO MATCH STANDARD LAMINATES

Willow on Beech Copper on Beech Shiraz Cherry on Beech Park Avenue Walnut on Beech Chocolate on Beech Nutmeg on Beech Portobello on Beech Ash on Beech Dune on Maple

NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

Custom Wood Finishes

Add 10% list to your order for special finishes, minimum upcharge is \$630 list per finish per order. (For example, on all orders up to \$6300 list, an upcharge of \$630 will apply, on orders \$6300 and up add 10% list to your order.)

Special finish upcharges on seating products are calculated on a grade 1 value. For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

Dual Finishes

Add 10% list per item if specifying dual finish.

Standard Wood Finishes

No upcharge will be applied when specifying a finish available as standard on one species onto maple seating and occasional tables. Clear finishes are not available on other species since they are a clear finish on top of the natural veneer color.

I AMINATE PROGRAM

LAMINATES

Krug's in-stock Laminates are available in 17 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Polymer Edge will be selected to match the worksurface. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

IN-STOCK LAMINATES

ORDERING NOTES: Glides options marked "n/a" are not available for that product due to leg style. Please see product pricing pages for optional glide upcharges.

GLIDE RECOMMENDATION BY FLOORING TYPE

Glide Material	Carpet	Vinyl/Linoleum	VCT	Rubber	LVT/LVP	Ceramic Tile	Concrete	Hardwood
Nylon - Floor Saver	**	*	*	*	NR	*	*	NR
Felt - Floor Saver	NR	*	**	NR	**	**	*	**
Rubber - Non-slip	**	**	*	*	NR	*	**	NR
Metal	*	*	NR	NR	NR	*	**	NR
Plastic	**	*	*	*	NR	*	**	NR

** = Best Solution

★ = Acceptable

NR = Not Recommended

ORDERING NOTES: The above chart shows our recommendation based on a clean, professionally finished floor without dust or debris between the glides and the flooring.
