LEED CERTIFICATION

MATERIAL CONTENT:

PRE-CONSUMER
RECYCLED CONTENT - 74%

POST-CONSUMER
RECYCLED CONTENT - 2.5%

| | | CONTRIBUTES To |
|------------------|---|----------------|
| Credit 2.1 - 2.2 | Construction Waste Management | 1-2 point(s) |
| Credit 3.3 | Resource Reuse | 1 point |
| Credit 4.1 | Recycled Content | 1 point |
| Credit 4.2 | Recycled Content | 1 point |
| Credit 4.5 | Low Emitting Materials, (MUST BE REQUESTED) Composite Wood & Laminate Adhesives | 1 point |
| Credit 5.1 | Regional Materials* | 1 point |
| Credit 6 | Rapidly Renewable Materials (MUST BE REQUESTED) | 1 point |
| Credit 7 | Certified Wood (MUST BE REQUESTED) | 1 point |

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Stratford products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard. All Stratford products can be supplied with level® certification. In order to accomplish this, the product must also be ordered with the air-emissions-certification option. Contact customer service for information and upcharges.

the mark of responsible forest

AIR-EMISSIONS

All Stratford products can be supplied with air-emissions-certified materials. Contact customer service for information and upcharges.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Stratford and other Krug products can be specified with one of two types of FSC® Certification: (a) FSC®-certified (which includes FSC®-certified lumber, veneer and substrate material) (b) FSC®-mix certified (which includes substrate material only, and is a lower cost option certification) Contact customer service for further information, pricing and lead times.

In addition, architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

STRATFORD | FEATURES & OPTIONS

PROFILES

Stratford conference product is available in all standard Cherry and Walnut, profile is shown below:

top profile

base profile

BASES

All bases are shipped separately and require assembly to selected top.

Refer to the base requirement chart on page 197 to select the appropriate bases and sizes for conference tops.

FINISH

A five step catalyzed varnish finish that when dry has a sheen value of 52°, is applied to all finished cases.

DRAWER PULLS

Stratford traditional series offers a choice of three pull combinations as described below.

Please indicate a pull designation for every Stratford product on your order. There is no default selection and orders will not be processed until a pull selection is received.

DEVON

Drawers are furnished with an arced Devon bail finished in antiqued brass and mounted with rosettes. Bookcase doors and hutch doors are provided with an antiqued brushed brass knob.

CANTERBURY

Drawers are furnished with a Canterbury bail finished in antiqued brass and mounted with rosettes. Bookcase doors are provided with an antiqued brushed brass knob.

AVON

All drawers, bookcase doors are provided with an antiqued brushed brass knob.

SEATING CAPABILITIES

To establish seating capabilities, an outside chair dimension of 24" has been used for this price list, plus an allowance of 5" between chairs, for a total of 29". This is an approximation only. When using another chair, particularly seating with a 5 prong caster base, be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug Conference product.

DATA AND POWER OPTIONS

Data and power options can be specified on all Stratford conference product.

The power pod on page 215 has surface mounted electrical access and data or communication ports for ease of use of powered items on the conference table top. Standard location for this item is over a base to allow cable management to the floor.

Please specify location on the purchase order or provide a drawing at time of order.

The power box on page 215 features two power outlets, one RJ-11 phone line coupler and one RJ-45 data coupler. Power boxes are finished in a black sand-tex powder coat, and when closed is lowered to a flush table top position.

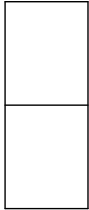

LAMINATE WORKSURFACES

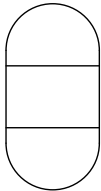

Laminate worksurfaces are available at an upcharge of 10% (a higher upcharge may apply to specially priced plastic laminates). Where there are wood profile edges on worksurface tops, they will remain as wood profiles on laminate tops. Krug will order and procure laminates. Purchase orders with a plastic laminate option must include Laminate Name.

Krug reserves the right to decline a laminate that may not be suitable for the application. Krug assumes no responsibility for the durability, consistent coloration or any other performance characteristic of a customer specified laminate. Laminates may extend the normal lead-time, check with Customer Service for current scheduling information. Please see page 347 for laminate information.

CUSTOM CONFERENCE TABLES

Krug has extensive capabilities for customization of conference tables, including special sizes, finishes, veneers, and special features such as ganging or mobility options. Please contact Customer Service with specific requirements and a drawing for more information.

ORDERING PROCEDURE

To order, please specify the following:

- 1) Krug product model number
- 2) Wood species and finish

STANDARD FINISHES

For a complete list of standard finishes please see page 347.

WIRE ACCESS DOORS

Please specify wire access doors on round bases when specifying conference product with power boxes or wiring grommets.

BASE REQUIREMENTS

See page 197 for the base requirements chart.

POWER BOXES

See page 198 for information on conferencing power boxes.

STRATFORD | TOPS AND BASES

* Stratford Conference tops only, feature single power box configuration.

Note: When specified with power boxes, standard tops sizes must be ordered in configurations shown above.
Upcharges shown are list prices.

Indicate 18" round and square drum bases
with one power box facing ends of top.

Indicate 24" and 30" round and square bases
with twin power box facing sides of top.

Connexus™ is Krug's proprietary tabletop connectivity solution. When opened, it presents power and data outlets on a convenient angle to the user and provides storage for wiring.

The faceplate of Connexus™ is available in either Glass or Aluminum and sits flush with the tabletop. It is designed to allow wiring to pass through the surface cover in both the open and closed positions. The faceplate opens to a 100° angle from the table top.

Connexus™ utilizes UL standard receptacle outlets. Connexus™ offers 11 pre-configured units with a wide selection of power, data and presentation system outlets, or alternatively can be purchased with just electrical ports with blank data ports. Connexus™ also can be designed and built specifically to meet your connectivity needs by using the snap-in or plate mounted port options.

All corded units can be modified to allow the units to be hard wired by an electrician and data ports can be reconfigured easily when desired. To facilitate this process, the Enclosure Box of each Connexus™ module is easily removable.

*All duplex outlets are contained within a metal box that is attached to the Partition Plate. If additional outlets need to be added in the future, these boxes need to be ordered from Krug to expand the enclosure. All modifications must be done by a qualified electrician.

The label drawing shown below illustrates the way a Connexus™ module is shipped to the user. The Partition Plate is mounted on-site to the underside of the top with the Enclosure Box over top to conceal the module. Please note, enclosure boxes are not required when modules are enclosed in a base. Enclosure boxes are not supplied with Connexus™ modules; they must be ordered separately when required.

CONNEXUS™ SIZES

Standard - 3 Gang

Large - 4 Gang

Connexus™ modules may be specified in Standard or Large sizes.

Standard modules are available in 7 standard configurations or custom configurations. Connexus™ modules in Standard configurations are 6 1/8" x 7 3/8". Depth on Standard module is 4.5".

Large modules are available in 4 standard configurations or custom configurations. Connexus™ modules in Large configurations are 8 1/4" x 7 3/8". Depth on Large module is 4.5".

CONNEXUS™

Connexus™ modules are wired independently of each other to maximize the amount of electrical devices serviced. All Connexus™ modules may sustain individual loads of 15 amps or 12 amps of continuous load. Each Connexus™ module will require a single isolated circuit to maximize its service capabilities. An optional utility a/c power outlet is available on the back surface of the outlet box.

Connexus™ components are UL and CSA US approved and manufactured in accordance to the National Electrical Code. Hardwiring Connexus™ modules on-site must be performed by a licensed electrician. Connexus™ units can be ordered with an optional utility outlet, which is located on the bottom side of the Connexus™ unit and underneath the work surface. Other Connexus™ products could employ these utility outlets as a source of power. In this scenario, it is solely the responsibility of the end user to assure that proper circuit protection is in place that never exceeds the 15 Ampere Circuit Breaker Rating.

ELECTRICAL CORD LENGTHS

Connexus™ modules come with pre-determined electrical cord lengths that are suited to the size and configuration of each table (16' & 25'). Each will plug into a standard floor monument power source. However, in situations where a table length exceeds our maximum cord length, a second power entry is necessary to avoid daisy-chaining of electrical power. To determine when a second power entry is required follow these steps:

1. Select your Connexus™ locations.
2. Select your Floor Monument Location(s) if they do not already exist in the room.
3. If the number of Connexus™ modules exceed three consecutive positions left or right of the power entry, then an additional power entry will be required.

Note: Connexus™ modules in pairs count as one position.

HARDWIRING ON SITE

For hardwiring on-site by electricians, please use the following schematic:

CONNEXUS™ | CUSTOM CONNEXUS™

Planning a custom Connexus™ unit is easy when following these 6 simple steps.

STEP ONE: Select the quantity of AC power ports or AC power ports with USB Charging (select configurations only) that are required.

Power modules must always be positioned starting from the right side of the unit. For example, 3 gang Connexus™ can have a power module located in position C with data ports in position A and B, or power can be located in position B and C with data port in position A, or position A,B and C can have all power ports or all data ports. Please note, 4 gang Connexus™ are not available with power ports located in position A.

On select configurations shown below, USB charging outlets are available. These charging outlets allow a user to charge most personal electronic devices without the need for any special power adapter or a computer - simply plug in your device with any compatible USB cable. This component has 2 USB charging slots that supply 5V DC at 700mA. Comes with a charging indicator light, as well as a standard 120 volt simplex receptacle on the bottom portion of the component.

STEP TWO : There are two cord end options available; Plug In and Conduit. The standard Plug In option will connect with any standard floor monument power source. The Conduit option is Liqueatite® (a steel inner conduit with a PVC overlay) by Anamet, meant for specific hard wiring applications. Units can come in cord lengths of 16' or 25'. Not Applicable if no power is selected.

EP
Electrical Plug In
No Upcharge

EC
Electrical Conduit
Add upcharge
16' 127
25' 212

STEP THREE: There are two data options available; Plate mounted ports or Snap-in ports. Snap-in ports are available in configurations of two, four or six. Choose the faceplate below that meets your data requirements. If an odd number of Snap-in ports are required, a blank port needs to be selected when the opening is not in use.

M02
Mounting Plate (2)
accepts two snap in data ports

STEP FIVE: Select the Connexus™ Cover (Aluminum or Glass)

Standard Connexus™

3 GANG

| | | |
|------|----------|------------|
| 3CCA | Aluminum | \$351 list |
| 3CFG | Glass | \$434 list |
| 3C00 | No Lid | |

Large Connexus™

4 GANG

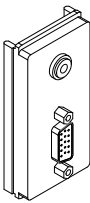

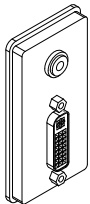

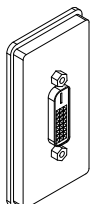

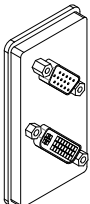

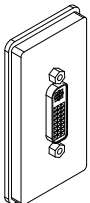

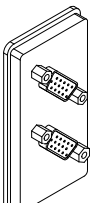

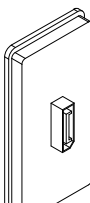

| | | |
|------|----------|------------|
| 4CCA | Aluminum | \$364 list |
| 4CFG | Glass | \$449 list |
| 4C00 | No Lid | |

STEP SIX: Enclosure box is only required only when the Connexus™ is not positioned over a base. If an enclosure box is required, please clearly state this requirement on your order and add the **\$281** per Connexus™.

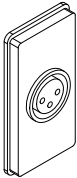

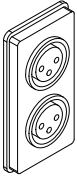

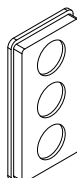

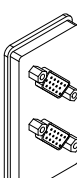

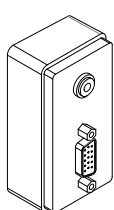

STEP SEVEN: Calculate the total list price for the custom Connexus™ by adding the following prices:

- Connexus™ Box with required AC Power Ports
- Faceplate (Snap-in Ports Only)
- Snap-In Ports or Plate Mounted Data Ports
- Enclosure Box (if required)
- Connexus™ Lid (Aluminum or Glass)

CONNEXUS™ | PORT OPTIONS

| PLATE MOUNTED PORTS | Reference Code | Description | List Price |
|--|----------------|--|------------|
|  | P01 | VGA & 3.5 STEREO MINI - Use for VGA (DB15) connections and for 3.5mm stereo connections. Connector is a female input with screw terminal output (back side of Console interface). | 134 |
|  | P02 | DVI-I DUAL (DIGITAL/ANALOG) & 3.5 STEREO MINI - Use for DVI Integrated - Digital and Analog connections and for 3.5mm stereo connection. The DVI connector is a Dual Link. DVI-I connector is a female-to-female pass through and the 3.5 Mini is a female input with screw terminal output (back side of Console interface). | 197 |
|  | P03 | DVI-D DUAL (DIGITAL) - Use for DVI-D Digital only connection. The connector is a Dual Link. Connector is a female-to-female pass through. | 127 |
|  | P04 | DVI-I DUAL (DIGITAL/ANALOG) & VGA - Use for DVI Integrated - Digital and Analog and for VGA (DB15) connections. The DVI connector is a Dual Link. Both connectors are female-to-female pass through. | 252 |
|  | P05 | DVI-I DUAL (DIGITAL/ANALOG) - Use for DVI Integrated - Digital and Analog connections. DVI connector is a Dual Link. Connector is a female-to-female pass through. | 161 |
|  | P06 | VGA-2 - Use for two VGA (DB15) connections. Both connectors are female-to-female pass through. | 156 |
|  | P07 | DISPLAYPORT - Use for DisplayPort connection. This connector is primarily used to connect a video source to a display device and also carries audio signals. Connector is a female input to a 3' corded output (back side of Console interface) with a male Display Port termination. | 156 |

CONNEXUS™ | PORT OPTIONS

| PLATE MOUNTED PORTS | Reference Code | Description | List Price |
|---|----------------|---|------------|
|  | P08 | MICROPHONE XLR STANDARD - Use for standard size XLR microphone connection. Connector is a female input with a 3 pin screw terminal output (back side of Console interface). | 212 |
|  | P09 | MICROPHONE STANDARD XLR -2 - Use for two standard size XLR microphone connections. Each connector is a female input with a 3 pin screw terminal output (back side of Console interface). | 309 |
|  | P10 | 3 HOLE CABLE PASS THROUGH - Use for running loose cables from the under side of the table up into the Console interface cavity. Often used with running wires for PolyCom™ devices. | 51 |
|  | P11 | VGA-to-BNCx2 - Use for two VGA (DB15) connections that are input female pass through and are terminated on the output (back side of Console interface) with 5 BNC female pigtail connections, for each VGA connector. | 504 |
|  | P12 | INPUT VGA & 3.5 Stereo (POWERED) - VGA + Audio Line Driver designed for VGA (DB15) connections and for 3.5mm stereo connections. This unit provides a method of transmitting signals to a remote display and audio receiver or amplifier. VGA connector is a female input and comes with cabling for either VGA output, or 5 BNC output and the 3.5 Mini is a female input with screw terminal output (back side of Console interface). A 9 volt DC 500mA power supply is required to power this unit. | 1231 |
| PORT ACCESSORIES | Reference Code | Description | List Price |

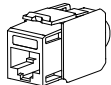

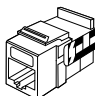

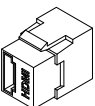

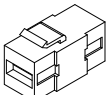

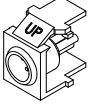

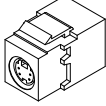

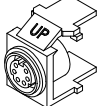

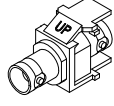

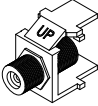

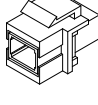

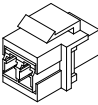

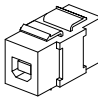

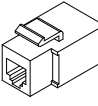

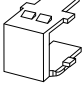

DVIR

DVI-REPEATER - Is a cable equalizer that automatically compensates for long DVI cable runs. This unit extends the usable cable distance up to 130ft depending on the quality of the cable and the resolution of the video signal. Additionally, it is capable of extending dual link signals allowing for much greater resolutions and refresh rates. This unit comes with a power supply and is generally mounted underneath a table.

|--|---|---|------------|
|  | S01W S01B S01R | RJ-45 - Category 6 data connection. This connector is also downwards compatible with Category 5 cabling. Connector is a female input with a #110 punch-down terminal block output (back side of Console interface) for on-site hard wire connection. RJ45-CAT6 (White) RJ45-CAT6 (Blue) RJ45-CAT6 (Red) | 43 |
|  | S02W S02B S02G S02R S02Y | RJ11 - Telephone type connection. Connector is a female input with a #110 punch-down terminal block output (back side of Console interface) for on-site hard wire connection. RJ11 (White) RJ11-B (Black) RJ11-G (Green) RJ11-R (Red) RJ11-Y (Yellow) | 30 |
|  | S03 | 3.5 STEREO MINI - 3.5mm stereo connection. Connector is a female input with screw terminal output (back side of Console interface). | 85 |
|  | S04 | HDMI - High Definition Multimedia Interface connection. Connector carries both HD audio and video data. Connector is a female-to-female pass through. | 161 |
|  | S05 | RCA-LEFT - RCA left audio channel connection. Color coded with black. Connector is a female-to-female pass through. | 36 |
|  | S06 | RCA-RIGHT - RCA right audio channel connection. Color coded with red. Connector is a female-to-female pass through. | 36 |
|  | S07 | RCA-VIDEO - RCA video channel connection. Color coded with yellow. Connector is a female-to-female pass through. | 36 |
|  | S08 | USB-A - Full size USB "A" style connection. Connector is a female-to-female pass through. | 58 |

| SNAP IN PORTS | Reference Code | Description | List Price |
|--|----------------|---|------------|
|  | S09 | 3 PIN MINI XLR - 3 Pin Mini XLR microphone connection. Connector is a female input to a 6' corded output (back side of Console interface) with a 3 Pin Mini XLR male termination. | 686 |
|  | S10 | S-VIDEO - S-Video connection. Connector is a female-to-female pass through. | 63 |
|  | S11 | PS/2 (6 PIN MINI DIN) - PS/2 (mouse, keyboard, other input devices) connections. Connector is a female-to-female pass through. | 79 |
|  | S12 | BNC - BNC style data connection for use with co-axial cable. Connector is a female-to-female pass through. | 43 |
|  | S13 | F-TYPE - F-Type (DSL, Cable) connections, generally for high speed Internet or video applications. Connector is a female-to-female threaded pass through. | 36 |
|  | S14 | FIBER OPTIC SC - Fibre Optic SC Simplex connection. Connector is a female-to-female pass through. Please note that two of these connectors are required to complete the data transmissions to and from the source and destination units. | 43 |
|  | S15 | FIBER OPTIC LC - Fibre Optic LC Duplex connection. Connector is a female-to-female pass through. One connector only is required to complete the data transmissions to and from source and destination units. | 85 |
|  | S16 | USB-B - USB "B" type connection. Connector is a female "B" input to a female "A" output (back side of Console interface). This connector is reversible. | 127 |
|  | S17 | RJ12 (White) - RJ12 style PolyCom™ connection. Connector is a female input with a 6' corded output (back side) of Console interface) with a male RJ12 termination. | 274 |
|  | S00 | BLANK COVER - Blank covers are required when port is not in use. | 16 |
| NOTE: Up to 6 snap-in data ports can be ordered for open data positions. Snap-in adaptors can accept 2, 4 or 6 snap-in data ports. Please order a blank port when an odd number of snap-in ports are specified. | | | |
