

# CEU: Innovative Strategies for Designing Safer Behavioral Health Environments

## Objectives

- Understand the differences between mental and behavioral health facilities and general healthcare facilities.
- Understand how strategic design interventions can support patient well-being and reduce aggressive behavior.
- Learn the risk levels in mental and behavioral health environments and how to specify furniture according to the risk levels.
- Identify trends in mental and behavioral health design.

Presented by Lauren Banas  
Vice President, Healthcare Sales & Marketing
